

## Referrals for Dog Trainers and Behaviorists

Living with a canine companion can be a very rewarding and fun experience. Unfortunately, there are many behavior issues that can arise. Many dogs end up in shelters due to some of these common behavior issues.

In some cases, home training is not enough. Our shelter works closely with some local training facilities and canine behaviorists. The following list does not represent the full extent of resources in our area, but it is a good place to start.
